

Conference 2019

Salmon and People in a Changing World

Friday 29th March 2019

National Museum of Scotland
Chambers Street, Edinburgh

2019 is the International Year of the Salmon – a unique initiative which will bring people together to share and develop knowledge, raise awareness and take action to address the environmental and man-made challenges faced by salmon.

Working with partners in the Missing Salmon Project, the Fisheries Management Scotland Annual Conference will focus on how key pressures on wild salmon are being addressed and prioritised, drawing on international best practice.

Further details are available from [our website](#)

Registration will open in early 2019
