

The Lark Sings

Photos from the River Lark project, March 2015. Andy Thomas, Wild Trout Trust.

Local hero Tim emerging from an early swim! A river he knows like the back of his hand!!!

One of six D&D features over 300m of channel

Flat glide transformed with D&D and shaped with 100t of imported gravel

Lower section. Deep features glide.

Shelves created with won flood plain reed sods.

Boggy berm installed with run & pool created on the the tail

Before

Treatment. Extend the width of the inside of the bend and install a D&D feature.
