Twenty-four river trout flies tied by Allan Liddle, a Scottish trout expert and member of the Partridge Pro Tying Team. The flies are a mixture of dries, spiders and nymphs – all patterns he uses on the rivers and streams he fishes. Allan doesn't tie commercially so all patterns are unique and can't be bought elsewhere.

The flies are: Olive DHE, Dirty Dusters, Comparaduns (olive and March brown), CDC Olive Emerger dries, Partridge and Orange, Purple and Hare's Ear spiders with Allan's wee take on the good old Greenwell in there too. Nymphs include Hare's Ear Rubber Legs, French Nymph, Partridge and Black and the simple but deadly PTN. Tied on a range of Partridge Patriot Barbless hooks including the new Wide Gape Jig and the excellent SLD2 Emerger. All in a tidy wee wooden box with big thanks to [Ed Gormanley](#) at the excellent Mill of Kellas Trout Fishery.
